HYGIENE FEMME BINS ARE MANDATORY

Sanitary Waste is a Controlled Waste and Must be Disposed of Under strict Legislation.

There is a responsibility for all businesses, offices, shopping centers, schools, and entertainment venues, even if there is only one female employee to provide a suitable means for the disposal of sanitary dressings in ladies washrooms.

Sanitary Disposal is Governed by the Following Legislation

1. The Workplace (Health, Safety and Welfare) Regulation 1982, Regulation 21
2. The Environmental Protection Act 1990, Section 34
3. The Waste Industries Act 1991
4. The Duty of Care Regulations 1991

Vaccinations for Waste Handling Workers

Workers responsible for cleaning bins may be at a higher risk than other workers as these workers may be exposed to infectious agents that cause disease.

Hepatitis A & B and Tetanus are potentially hazardous for solid waste workers and these diseases can occur at a number of different stages or processes in the management of waste.

Training

All our employees that work with waste understand the risks through proper instruction training and supervision, they are aware of the procedures to follow to minimize the risk of ill health and know what to do if unexpected hazardous waste is encountered as well as to recognize different waste types.

SPECIAL SERVICES
